

Annelise Chapman, Managing Director - Tango Seaweed (Norway)

Area of expertise:

Annelise Chapman has her professional background in marine science and ecology. Having worked with coastal vegetation systems in Academia, both in Europe and North America, she was inspired to become part of the emerging seaweed sector as an entrepreneur.

As founder of TANGO Seaweed in Norway, she is enthusiastic about seaweed as a fantastic resource for a sustainable and healthy future.

She hopes to contribute to a new type of aquaculture developing with diversity to its full potential.
